

It is crucial to get the glove size right for maximum dexterity.  
Here are a few recommendations to help you in finding  
the right size of gloves you need.

Glove size further to EN420	Hand (mm)		Glove (mm) Minimum length
	Palm circumference	Length	
6	152	160	220
7	178	171	230
8	203	182	240
9	229	192	250
10	254	204	260
11	279	215	270

#### COLOR-CODED CUFF

Some styles of Glove have a color-coded cuff. These cuffs enable the size recognition in the factory and the pairing after washing the gloves.

#### TESTING PRIOR TO USING

If the glove is too small, it cuts off the blood circulation and restricts the movement of the hand. On the contrary, loose gloves slip off at the slightest movement and make your handling very imprecise. To be sure of your size and fit contact Globus.
